

# DEAR FRIENDS OF GI ENDOSCOPY,

We hope that you all are fine and keeping well during these times! It is our great pleasure to cordially invite you to join us for the first worldwide endoscopic livestream on June 5 this year – 12 cities from East to West will present you relevant cases performed by renown endoscopists. The format does not require any travel and respects indications for GI endoscopy presently valid at each participating unit.

Looking forward to meeting you then!

Alessandro Repici and Thomas Rösch,  
on behalf of EOA Team
